

## OVERVIEW

---

We provide compassionate and professional care for seniors at our State of California licensed residential care facility (State license No. 197605877).

We offer superior quality home like living for seniors with physical limitations who have a greater need for care and help with the activities of the daily living and would be at risk living alone.

Our caregiver to patient ratio of 2 to 1 ensures a very personal service and close supervision of our residents.

We are specially licensed and equipped to take care of dementia/hospice patients.
